Guy de Rothschild died of complications

(He is the richest \$Trillion man of the world)

Malheureusement Il n'avait pas pu survivre ses argents.

Rothschild fought his way to survive death unsuccessfully.

A lot of Rich guys hypnotize themselves to believe that they can become immortal thinking to download their brain into electronic device, some attempted a bit longer through technology mean unsuccessfully.

What they don't know is:

God Jehovah (Life Creator) already programmed human body to shut down at appointed time.

In Rothschild's chart above, the first key to recognize normal death is Pluto-opposing-Pluto in division #6 for 1st mark test, many can't survive it. The second key is own Sun-opposed/squared-by-own-major-planets/node (Time Force). If you want to live long, we can see your possibility in a chart, but ask your Creator for a permission first. Do it in your age 60's.

Steve Jobs illness and the ending of his life..

In this example Superview reveals **“what meant to be ought to be...”**

In October 2003, Jobs was diagnosed with cancer, Steve essentially committed suicide." According to Jobs's biographer, Walter Isaacson, "for nine months he refused to undergo surgery for his pancreatic cancer – a decision he later regretted as his health declined." "Instead, he tried a vegan diet, acupuncture, herbal remedies and other treatments he found online, and even consulted a psychic. He also was influenced by a doctor who ran a clinic that advised juice fasts, bowel cleansings and other unproven approaches, before finally having surgery in July 2004." He eventually underwent a [pancreaticoduodenectomy](#) (or "Whipple procedure") in July 2004, that appeared to successfully remove the tumor.^{[212][213][214]} Jobs apparently did not receive [chemotherapy](#) or [radiation therapy](#). During Jobs's absence, [Tim Cook](#), head of worldwide sales and operations at Apple, ran the company.

In early August 2006, Jobs delivered the keynote for Apple's annual [Worldwide Developers Conference](#). His "thin, almost gaunt" appearance and unusually "listless" delivery,^{[216][217]} together with his choice to delegate significant portions of his keynote to other presenters, inspired a flurry of media and Internet speculation about his health.

Two years later, similar concerns followed Jobs's 2008 WWDC keynote address. while others surmised his [cachectic appearance](#) was due to the Whipple procedure.

Apple officials stated Jobs was victim to a "common bug" and was taking antibiotics, During a July conference call discussing Apple earnings, participants responded to repeated questions about Jobs's health by insisting that it was a "private matter". Others, however, voiced the opinion that shareholders had a right to know more, given Jobs's hands-on approach to running his company. [The New York Times](#) published an article based on an off-the-record phone conversation with Jobs, noting that "While his health problems amounted to a good deal more than 'a common bug', they weren't life-threatening and he doesn't have a recurrence of cancer.

Steve jobs failed to take care of his health when he should have in early 1998. Jobs appeared to convince himself or by unqualified professional's as early as 11/1998 to believe he can cure unclean guts through psychic and other remedy. He already felt something went wrong inside in 2/1998 intermittently (his own moon ^[painful feeling] afflicted by weak health division#6, shown by –Pluto). By 10/2002 it became too obvious to him that sickness advanced further, chart says. We didn't have his birth data at that time, even if we warned him, he probably would not respond like the rest of rich and powerful people ignoring our warning materials.

No one likes to hear any bad news but it's the bad news that saves people life. Some rich and powerful people making decision for people, they ignored our warnings as well. “what meant to be will always be...”

The truth about life and death is shown on every one's chart long time ago. Yes God knew it before we arrive on earth but placed us here any way. The system of payback and reincarnation may be already incorporated in the cycle of rebirth by design. Steve Ballmer went through similar but weaker trend (Saturn); he survived due to his strong security sign in division #4. Jobs had poor security sign, health issue's already on his chart; his Sun/life opposing –neg-Neptune was sure a suicide.
